

## My Sample Day

8:30 am – 9:00 am	Arrival. I get to my class, and I'm greeted by my instructors. I pick out my own computer and sign in.
9:00am – 9:15am	Warm-up. Can't get the morning started without getting on our feet and playing a few fun games!
9:15am – 9:45am	Camp-wide activity. We get out of the class and find out more about other campers and instructors by participating in the technology games!
9:45am – 10:45am	My first lesson. Now that we're awake and ready, let's pick up the mouse and start creating!
10:45am – 11:00am	Break! A time for us to stretch and relax a bit.
11:00am – 12:00pm	Project 1. I'm working with a partner to design a magazine ad. It's going to be great!
12:00pm – 12:45pm	Lunch! Man am I hungry!
12:45pm – 1:00pm	Camp director activity. Man, that director guy is a really funny guy!
1:00pm – 1:45pm	Lesson 2. Okay, time to try out these new digital cameras.
1:45pm – 2:00pm	Break! We join another class across the hall for a game of digital dodge ball. I never knew there was a thing...
2:00pm – 3:15pm	Project 2. We're now creating our very own comic books!
3:15pm – 3:40pm	Final game – Our instructor creates a digital Jeopardy game on his computer, and we try to answer questions about today's lessons.
